Welcome to term 2!

We are already back into the swing of things with students kicking off the term publishing a piece of writing they wrote last term. Students will be working towards learning editing and publishing skills so they can produce a polished personal narrative. We will explore famous authors to help us discover ways to engage our audience and experiment with writing in different genres. We are looking forward to seeing the results of our hard work!

In reading, students will be practicing reading strategies and comprehending what they read. We will continue to work on our individual goals which will be evaluated in one-to-one conferences as well as guided reading lessons. Our parent helpers are starting this term and we look forward to having some extra help in the classroom.

Our hands-on approach to maths will continue, with students exploring multiplication, division and length. Students will continue to be encouraged to ‘think like mathematicians’ and draw on their knowledge base to solve problems in a variety of ways. They will be using a wide range of materials to help them visualise their learning.

In Inquiry this term we will continue to delve into our topic ‘Growing Older and Wiser.’ We will investigate ways to be safe in the community and the differences which make us unique.

We appreciate your support by continuing to use Mathletics and nightly reading with a focus on your child’s individual learning goal.

Please contact your classroom teacher if you have feedback or a query via a diary entry.

Kind regards,

The grade 2 team.
